GTA Overview

Is the region building, and where? Permits Issued counts permits with an issue date. 2026 is partial: label it so and do not annualise. Latest complete year: 2025.

year
- [ ] (Blank)
- [ ] 2010
- [ ] 2011

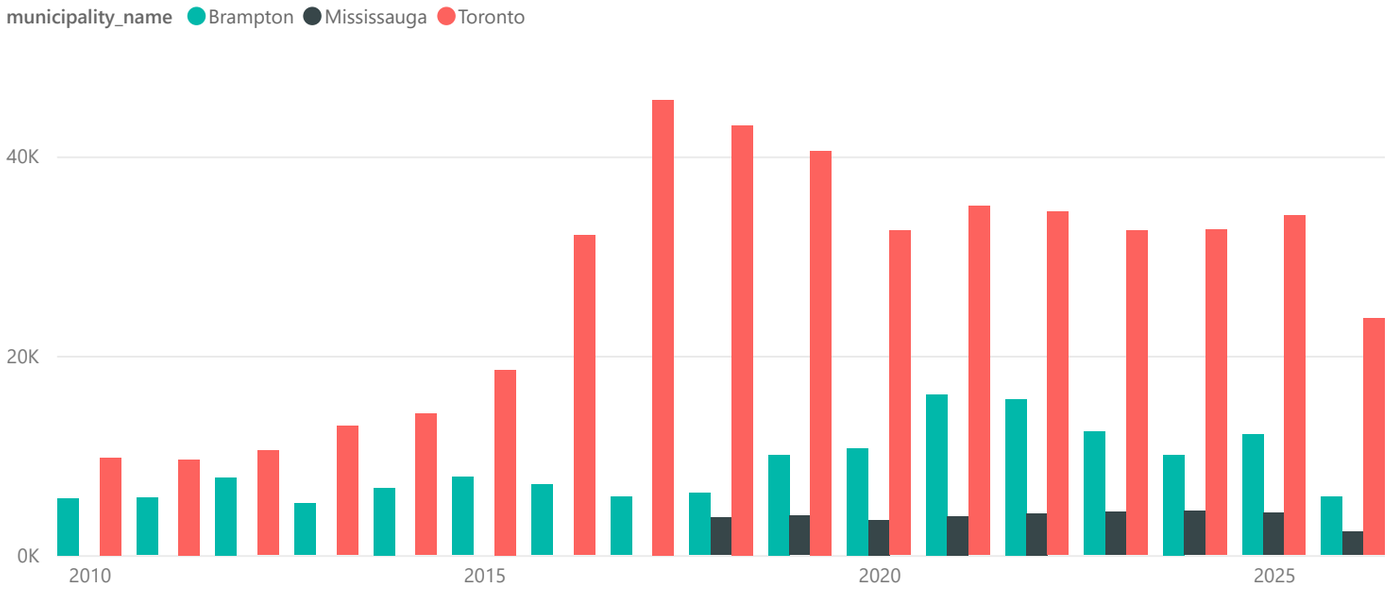

municipality_name
- [ ] Brampton
- [ ] Caledon
- [ ] Mississauga

647,589
Permits Issued

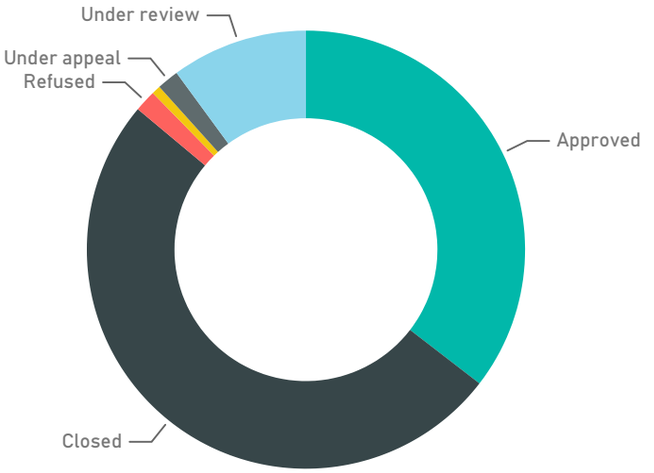

2,668
Active Applications

Permits Issued: permits carrying an issue date (647,589 in total).
Permit Records: every permit row (827,919). Different measure, different label.
Net New Units is mixed-basis and is shown per municipality on the next page only.

Permits Issued by year and municipality_name

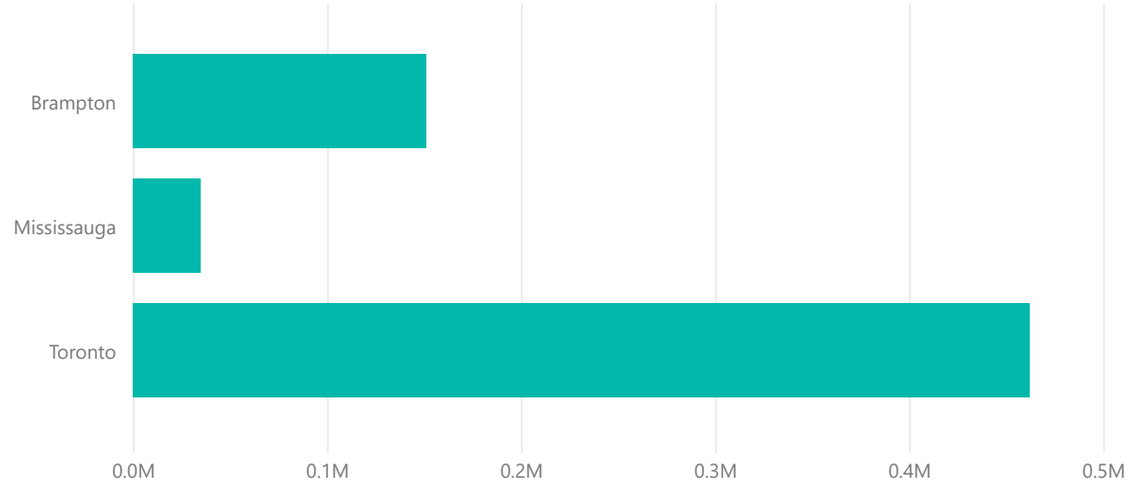

Count of application_sk by status_label

Municipal Comparison

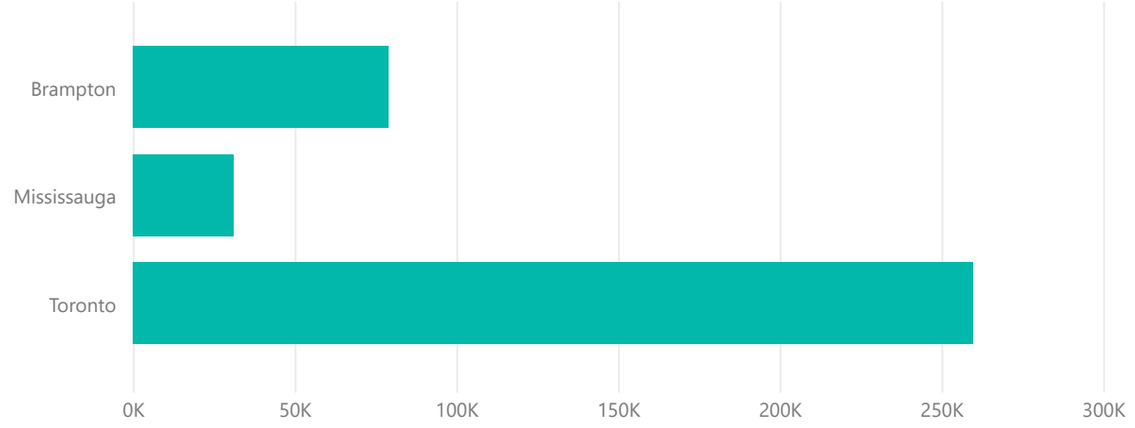

Who is actually building. Raw volumes and status mixes only: per-capita is pending (P1).

Permits Issued by municipality_name

municipality_name	Permits Issued	Permit Records	Date Coverage Pct
Brampton	150,936	221,319	68.1%
Mississauga	34,614	34,614	99.9%
Toronto	462,039	571,986	80.4%
Total	**647,589**	**827,919**	**78.0%**

Net New Units by municipality_name

Net New Units is MIXED BASIS (ADR-0003). Toronto is created minus lost; Mississauga and Brampton are as reported. Compare within a municipality only.

Never total it across municipalities. The chart has no total on purpose.

64.3% of permit rows carry no unit count; SUM skips them, they are not zeros.

Per-capita (P1): pending StatCan census profiles. Not shown as zero.

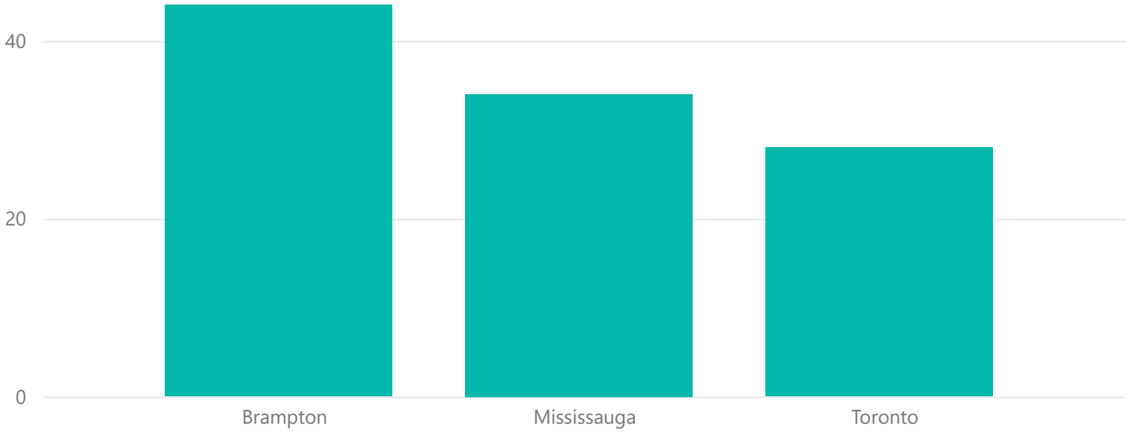

Caledon: no permits in these feeds. In scope as geography (ADR-0004). Blank, never zero.

Toronto net units are excluded pending audit: one unverified 100,000-unit placeholder (26 256637 BLD, first seen 2026-10-22). It is not in the September data shown here.

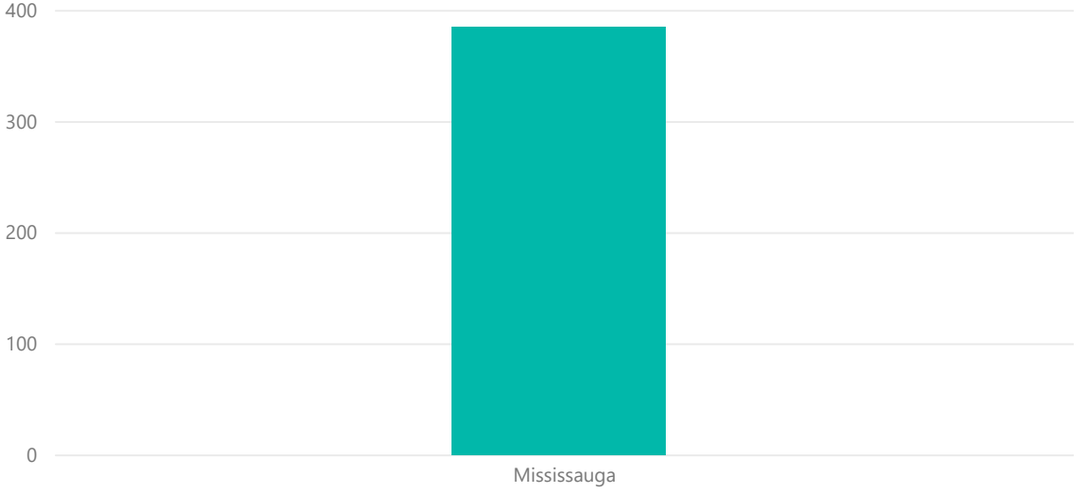

Pipeline Velocity

How long things take. Medians are per municipality: coverage differs, so do not average them into a GTA figure.

Median Applied to Issued Days by municipality_name

Median Submitted to Decision Days by municipality_name

municipality_name	Date Coverage Pct
Brampton	68.1%
Mississauga	99.9%
Toronto	80.4%
Total	**78.0%**

Submitted to decision (M7): Mississauga only (385-day median). Toronto and Brampton: no decision dates in source. Empty by design, not omitted.

Application to permit timing (P2): pending, see ADR-0006.

Medians cover different shares of permits; read Date Coverage Pct beside them.

Geography

Where inside each municipality. Toronto permits are grid-referenced, not wards, so they do not appear by ward here.

municipality	ward_name	Permits Issued	Active Applications
Brampton	Brampton Ward 1		69
Brampton	Brampton Ward 10		119
Brampton	Brampton Ward 2		47
Brampton	Brampton Ward 3		110
Brampton	Brampton Ward 4		45
Brampton	Brampton Ward 5		28
Brampton	Brampton Ward 6		112
Brampton	Brampton Ward 7		42
Brampton	Brampton Ward 8		113
Brampton	Brampton Ward 9		32
Mississauga	Ward 1	3,994	42
Mississauga	Ward 10	2,965	6
Mississauga	Ward 11	3,154	20
Mississauga	Ward 2	2,764	13
Mississauga	Ward 3	1,649	34
Mississauga	Ward 4	2,295	20
Mississauga	Ward 5	7,100	46
Mississauga	Ward 6	2,304	6
Mississauga	Ward 7	2,655	37
Mississauga	Ward 8	3,248	17
Mississauga	Ward 9	2,486	14
Total		**34,614**	**2,664**

The row with a blank name holds Toronto and Brampton permits (612,975), which have no ward. Hide it with a visual filter: ward_name is not blank.
Denominator: this page covers Mississauga permits (34,614), Toronto applications with a ward, and the Brampton ward rows. It is NOT the 827,919-permit universe.
Brampton ward view: equivalence is UNCONFIRMED (conformance matrix section 3).
dim_geography holds every vintage. Set a visual filter Is Current = true before reading ward names, or wards repeat.

Data Quality & Freshness

Prove the numbers. A reader who only opens this page should still trust the other four.

municipality_name	Permit Records	Permits Issued	Date Coverage Pct
Brampton	221,319	150,936	68.1%
Mississauga	34,614	34,614	99.9%
Toronto	571,986	462,039	80.4%
Total	**827,919**	**647,589**	**78.0%**

ingest_batch_id	Permit Records
2026-09-10	827,919
Total	**827,919**

Gold totals to match (docs/measure-reconciliation.json): Permit Records 827,919 (Toronto 571,986, Brampton 221,319, Mississauga 34,614). Permits Issued 647,589 (Toronto 462,039, Brampton 150,936, Mississauga 34,614).

Orphan keys, fact to dimension: 0 and 0. A non-zero count here means a broken model.

Unit basis: MIXED (ADR-0003). Net New Units is never totalled across municipalities.

Pending measures: P1 per-capita (StatCan census profiles); P2 application to permit timing (ADR-0006); P3 see docs/data-dictionary.md.

Source: September export, ingest 2026-09-10 (docs/data-quality-report.md). October data is held until the Toronto extract is validated.

CANCELLED: 58,890 permits; 19,577 carry an issue date and are counted in Permits Issued under the current rule. Director decision pending.
